What is life?

There are a thousand answers

in a thousand people's eyes.

But we all know, it only comes once.

Why not make it

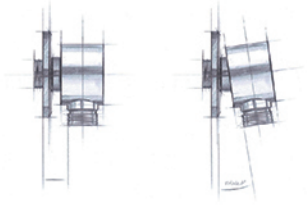
more you and enjoyable?

Enjoy Your Life
with Bravat
Living space reflects one's attitude towards life.
To create the most elegant way of living for our users is Bravat's mission.
So we never cease to observe, to think, to improve, and bring out innovative products.
DESIGN AWARD

Good Design • the Power of Innovation

Designing is the core strength of Bravat.
Comparing to the designer's fame, Bravat values more of their imagination, their professional quality as well as their appreciation and comprehension of the brand concept.

During the selection period, the Design Directors of Bravat would meet and communicate with every single finalist. Having gained a thorough understanding of the candidates' comprehension of Bravat's style, as well as the designers' career plan, the directors would then sincerely welcome the most suitable designers on board.



Nowadays, Bravat owns four design centers, separately located in Germany, the UK, Netherlands and China. All of which continues to attract more outstanding designers all over the world.

Micro-intelligent

The International Awards of Good Design

Bravat has been winning Reddot Awards and iF Award in recent years, which declares our international reputation of good design.
The modern and professional creation ensures every single Bravat product to be aesthetical, ergonomic and fits fluid mechanics.

FUN 001

Hands Free, Feel Free

The design of Deri hand-free cup filler is inspired by the "Seesaw".
It applies the lever principle to revolutionize the users-experience of cup filler. Once the cup is put on the board, its weight will press down the board and automatically turn on the tap, and the water will stop automatically when the filled cup is taken away, set free your hands and never let your tap keep running after use.

F7196243CP-RG
Equatre Series Kitchen Mixer

Certification: ROHS \ CE \ WRAS \ UL approval

DESIGN AWARD 2016

reddot award 2016
winner

Equatre, one minimalist styling electronic tap delivers hot, cold, boiling and filtered, 4 water types from 1 spout with world leading technology. It is defined to be a healthy hydration alternative to bottled water and hot water heater.

F7196243CP-RG
Equatre Series Kitchen Mixer

Features

- Innovative Four Flow System
- Patented Separated Water Flow
- Intelligent Anti-scald Technology
- Unique Suction Device
- High-level Performance of Health
- High-level Safety Performance

It would be fun to control 4 waterways which are separated in 2 handles.
Crystal clear handle on the left switch filtered/boiling water. With single touch, it shows blue light to indicate filtered drinking water. When you touch and hold for 3 seconds, it turns red to indicate boiling water. For safety, boiling water will stop immediately if there is not contact. Cold-start 2 stages handle on the right side controls hot/cold water. For energy saving, stage 1 offers cold water only. Hot water will be turned on in stage

Reinvent the Water Tap

The use and the form of the water tap haven't had any significant changes since its introduction. But now, CUP makes a change.
CUP is for people who like new stuff, who want to stand out of the crowd. The initial principle comes from actual water fountain but faucet requires much more complicated technique.

F11712116CP
Cup Series Basin Mixer

reddot award 2016
winner

The hollow top is designed that the users could use it as toothbrush holder, a vase for flowers or anything creative, therefore minimizing the need for other bathroom accessories.

CUP not only is a functionally innovative faucet, but can also satisfy various cultural needs.
The blade-like fountain cleanses more efficiently than standard faucet when a single user envelopes his/her hand around it. When shared in public spaces by multiple users, it cuts queuing time and water consumption significantly.

- High-quality Lead-free Brass

Vogue

FUN 004

Natural Element is in Vogue

Vogue is positioned as a modern iconic wash basin mixer.
It emphasizes a reminiscent of nature, elegant and minimalist fashion styling, and application of user-friendly materials. The tree branch shape and round curves advocate the appearance of natural elements.

Closed to Finnish Nature

Inspired by streams from the Finnish woods, 'Helsinki' evokes sense and sensibilities of nature.

F196150C-1
Helsinki Series Basin Mixer M

reddot award 2016
winner

The balanced and modern form was deliberately designed to avoid any gimmicks of "organic" shapes. Yet by cutting a crisp and elegant strip along the opening, 'Helsinki' highlights the texture of naturally flowing water, subtly transports users to nature.

M+Draw-off

FUN 008

Convenience, Just at a Switching

M+ draw-off tap's design is inspired by the organic structure from natural plant. "Multi" application is the exact design intent.

F300310CP
M+ Washing Machine Tap

DESIGN AWARD 2016

One source of water, the "root", provides two outlets for different uses. You will no longer need a valve for your washing machine and another valve for the basin next to it, only one M+ draw-off tap is sufficient.

Features

- Dual-function Cartridge
- User-friendly Design

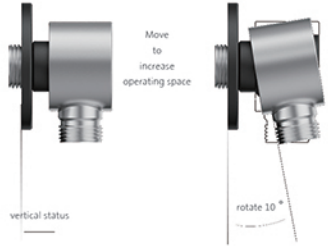
Fit

FUN 009

Innovation, at A Touch of the Button

Although a angle valve doesn't play a leading role, we never neglect its designing and manufacturing process. We realize that only if we care about every detail, can we able to create perfection.

DT005AP
Fit Angle valves



It is one-key operate angle valve. The function of regulating water flow is barely used, thus its one-key button can avoid needless operations. The hose connector can sway back and forth 10°to ensure enough room for the installation of hose. Black coupled with white, and simple geometric modeling coupled with stainless steel, which abandons needless design and seeks the best match.

Features

- Press-button Cartridge
- Adjustable Connector
- Black / White
